

xStats

Dynamic Online Graphic Signature Background for xStats
(starting from version 1.3.0)

well,

Let's have a look at the default background xStats use :

- The image size is : 630x120.
- In this image xStats generate statistics in an area of 395x120 at the right and leave an area of 235x120 at the left to put a detailed logo never overlaped by xStats statistics.
- Firstly xStats add mini icons on this area and at last draw statistics it feetch from xMule also in this area.

Example :

Left (Free area) :

Right (statistics area) :

You can make your own background image with respect of the size of the original 630x120 (SHARE_PREFIX/share/xStats-version/xMule-online-sign-clean.png).

When your background is created, just put it in place of the original & Enjoy !!! ;-)
